

Meijer Holland has an optimal system for the quickly processing of small bales. Read below more about this collect and grab combination. Special versions are available on request.

Limo Hydra

The Limo Hydra is a hydraulic collector for straw or hay bales. Connected to a platform at the back of a small bale press, the Limo Hydra lays properly down a package of bales on the field.

- suitable for bale presses with high capacity
- bales are not dragged over the ground
- hydraulic drive of rollers, further operation fully mechanical
- controller to set up speed spiral rollers
- oil use: ca. 30-35 litres per minute
- no spray trails thanks to wide wheels
- platform for connection to bale press
- trouble-free operation

Type	Number of bales	Dimensions bales (lxwxh)	Min. bale weight	Length	Width	Weight
Limo Hydra 8	8	105x50x40 cm	15 kg	326 cm	265 cm	680 kg
Limo Hydra 12M	12	85x50x40 cm	15 kg	365 cm	255 cm	750 kg
Limo Hydra 15M	15	85x50x40 cm	15 kg	365 cm	300 cm	900 kg

Limo Mecha

The Limo Mecha is a mechanical collector for 8 straw or hay bales. Connected behind a small bale press, the Limo Mecha lays properly down a package of bales on the field.

- suitable for clay and sandy soil
- operation fully mechanical
- the control system consists only of three springs on three valves with the soil as the drive
- connected behind bale press with narrowing platform. This slows down the bale, which ensures a consistent flow into the bale collector.
- trouble-free and easy operation

Type	Number of bales	Dimensions bales (lxwxh)	Length	Width	Weight
Limo Mecha 8	8	105x50x40 cm	548 cm	270 cm	400 kg

Meijer KM

The Meijer KM is a bale grab to pick up small straw or hay bales simultaneously and to unload at destination.

- suitable for frontloader, telescopic handler or forklift
- with two-way hydraulic cylinder, making springs not necessary
- red guidance arm pushes bales against each other
- good to be used in combination with Limo Hydra or Limo Mecha bale collector

Type	Number of bales	Dimensions bales (lxwxh)	Length	Width	Height	Weight	Number of hooks
Meijer KM 8	8	105x50x40 cm	217 cm	200 cm	60 cm	264 kg	18
Meijer KM 12M	12	85x50x40 cm	265 cm	200 cm	60 cm	400 kg	26
Meijer KM 15M	15	85x50x40 cm	265 cm	245 cm	60 cm	500 kg	34
Meijer KM 16	16	105x50x40 cm	217 cm	400 cm	60 cm	550 kg	36

folded: 200 cm

Options Limo

- lighting set
- following car with mechanical valve
- following car with hydraulic valve

Options Meijer KM

- removable brackets
- hydraulic hoses and couplings
