

The Jumbo CKM of Meijer Holland is designed for grabbing wrapped bales (round or rectangular) from the top side. However, also solid hay or straw bales can be grabbed with the CKM bale grab. The Jumbo CKM has three different types: the CKM 1, 2 and 3.

Jumbo CKM 1

- suitable for front loader, wheel loader or telescopic handler
- turning (red) roller at the top of the arm for the correct movement of the bale
- no damages to the foil of the bales
- a security valve holds the bales even when the oil pressure drops
- heavy grab arms from thick wall pipe

Type	Number of bales	Bale dimensions	Max. capacity	Width	Height	Weight
Jumbo CKM 1	1	till 125 cm wide till 120 cm high	800 kg	100 cm	100 cm	250 kg

Jumbo CKM 2

- suitable for front loader, wheel loader or telescopic handler
- two adjustable arms to grab the bale from the top
- the two bales are released simultaneously
- one wheel, which triggers the hydraulic valve, gives the possibility to grab each separate bale with only one hydraulic circuit
- optional: 6/2 electric valve controlling both arms separately, instead of hydraulic valve

Type	Number of bales	Bale dimensions	Max. capacity	Width	Height	Weight	Number of hydraulic valves
Jumbo CKM 2	2	till 125 cm wide till 120 cm high	1600 kg	255 cm	115 cm	590 kg	0 or 1 (optional)

Jumbo CKM 3

- suitable for wheel loader or telescopic handler
- three adjustable arms to take up the bales from the top
- the three bales are released simultaneously
- grab arms are telescopic and can be adjusted so that the three bales are put tight together (stroke of 70 cm)
- plastic wearing profiles on telescopic guidance parts
- 6/2 electric valve to choose for grabbing or telescoping
- two wheels, which trigger the hydraulic valves, give the possibility to grab each separate bale with only one hydraulic circuit
- overpressure relief valve

Type	Number of bales	Bale dimensions	Max. capacity	Width	Height	Weight	Number of hydraulic valves
Jumbo CKM 3	3	till 125 cm wide till 120 cm high	2400 kg	300 cm	135 cm	1200 kg	2

Options Jumbo CKM series

- triangle shaped grab arms with wide roller
- removable brackets
- hydraulic hoses and couplings
