

The Rambo of Meijer Holland collects big straw or hay bales one by one and loads them together. Standard available in ten versions. The Rambo 2, 2D, 3, 4, 4D, 5, 6, 6K, 6KD and 7K. Special versions are available on request.

Rambo

- suitable for front loader, wheel loader or telescopic handler; depending on type of bale grab
- hydraulic valves to grab bales separately with only one hydraulic circuit
- the bales are released simultaneously
- for each bale the Rambo has one cylinder and four hooks
- the hooks pull the bales tight to the main frame, which secures a safe way of working

Type	Number of bales	Width	Height	Weight	Number of hooks	Number of hydraulic valves
Rambo 2	2	200 cm	85 cm	300 kg	8	1
Rambo 3	3	290 cm	85 cm	785 kg	12	2
Rambo 4	4	440 cm	85 cm	1150 kg	16	3
Rambo 5	5	610 cm	85 cm	1500 kg	20	4
Rambo 6	6	740 cm	85 cm	1900 kg	24	5

Rambo foldable

- suitable for heavy wheel loaders from 14 tons operating weight
- foldable main frame to transport the grab on the road
- 6/2 electric valve to choose for grabbing or folding
- overpressure relief valve

Type	Number of bales	Width	Height	Weight	Number of hooks	Number of hydraulic valves
Rambo 6K	6	690 cm	85 cm	2200 kg	24	5
		folded: 300 cm	folded: 290 cm			
Rambo 7K	7	780 cm	85 cm	2490 kg	28	6
		folded: 300 cm	folded: 320 cm			

Rambo transversely

- grabs the bales transversely
- suitable for front loader, wheel loader or telescopic handler; depending on type of bale grab
- works perfectly in combination with the Fred bale grab. On the field collecting with the Rambo D and in the warehouse unloading with the Fred.

Type	Number of bales	Width	Height	Weight	Number of hooks	Number of hydraulic valves
Rambo 2D	2	100 cm	85 cm	500 kg	12	1
Rambo 4D	4	450 cm	85 cm	1200 kg	16	3
Rambo 6KD	6	690 cm folded: 300 cm	85 cm folded: 290 cm	2200 kg	24	5

Options Rambo series

- removable brackets
- hydraulic hoses and couplings
- overpressure relief valve (standard on 6K, 7K and 6KD)
