

The Fred is the Meijer Holland bale grab to stack big bales. Available in six different versions, the Fred is the perfect grab when it comes to stacking and moving big bales of hay and straw. Special versions are available on request.

Fred

- suitable for front loader, wheel loader, telescopic handler, forklift or crane
- all bales are grabbed by the hooks
- the special developed hook of high quality steel turns deep into the bale and pulls the bales against the main frame
- if the grab is tilted forwards, the bales do not fall off, thanks to the rotating axles with hooks
